**Subject:** Deployment Call

Good Evening Everyone!

I hope it was a great week for you all. I wanted to see if we can schedule a call for next week to discuss the proposed patrol routes as well as the robot branding.

We would like to button all of this up so that we can set the deployment schedule and have all the needed items finalized.

Please let me know what works best for everyone's schedule and I will set it up.

Thank you all and have a great weekend,

Chris

Ricardo,

Good evening Ricardo. I wanted to reach out and see if you were available for a call this week to discuss the deployment and for myself and Tom Miller to check in and see how things are going.

Please let me know if you and your team will be available this week and a good time for you all.

Thanks,

Chris

Rick,

We have the park closure announcement set up and it is in operations. I am working with the Chief on getting the **number for the intercom button** and that will take just a few minutes to program I will let you know as soon as we have that complete.

Thanks!

Chris

**Subject:** Knightscope Call

Good morning Rick,

Thank you again for helping us get started on deploying the robot. As we discussed on our call yesterday, below are a few items we'll need your team's help with.

Map – Outline the patrol routes and 2 charge pad locations with 110V power.

Wrap – We need either an Illustrator (.ai), .eps or a vector based .pdf of the logo you'd like to use with the city seal.

Robot Name – This is optional, but we can include the robots official name on the wrap if the city wants to.

Deployment Contact – Please provide the contact info for Daniel Hernandez.

Knightscope Software – Please provide the contact info for the person at the PD that will be using our software and handling alerts from the robot.

Please let me know if you have any questions.

Thanks again,

Jason M Gonzalez

**Subject:** Knightscope Client Experience Call

Ricardo,

I wanted to reach out to you and set up a call in regards to your upcoming Knightscope K5 Deployment. Do you have preferred availability this week or next week that we could connect and discuss?

Also, we would like to get you a mocked up K5 design with your preferred logo on the robot. Is there someone that you can connect me with in order to obtain a copy of the logo?

Thank You Ricardo and we look forward to supporting you.

Chris

**Subject:** Knightscope Deployment Update - Power Questions

Hi Rick,

I hope all is well. The team is preparing to deploy the robot next week and had a few more questions regarding power.

Can you please confirm where the power is located on the property? A picture of a map showing the location or clear description of where should suffice.

What amperage is the circuit and is it a dedicated outlet? Has it been tested?

Lastly, will there be a secure lock box on the outlet to prevent people from unplugging the charging system?

Thanks,  
Tom

**Subject:** Knightscope Pre-Deployment Call

Ricardo,

I wanted to follow up from my email the other day. Is there a time tomorrow that we can discuss the upcoming deployment?

We are prepared to deploy but, we need to confirm a few things in order to allocate the resources.

Due to the time line of commitments we would prefer to have this completed before the end of this week to ensure we meet the deployment date set. If this is not possible we will have to set a new deployment date and this could delay having the robot on site.

Please let me know as soon as possible a time that works for you either today or tomorrow.

Thanks Ricardo,
